University Activities-----22

Dear colleagues and readers,

We are back with another quarter of Horizon loaded with achievements, excursions, publication, and related activities, our heart pumps with sense of achievement and acknowledgement for prizes won, bar raised through achievements, excursion, CSR activities. From the academic organization of workshops and seminars, placements, internship to the philanthropic activities of distributing teaching materials, each initiative echoes our university's commitment to holistic education and community engagement.

The students' enthusiastic participation and the faculty's unwavering dedication have been the cornerstone of every successful endeavour. Be it celebrating Cultural Day, fostering wellness through yoga and stress management sessions, or extending our reach into villages under the Unnat Bharat Abhiyan, each activity has upheld the spirit of unity, learning, and service.

This newsletter captures not just events, but the essence of our university life—a confluence of knowledge, values, and vision. As you flip through these pages, may you relive these vibrant moments and feel inspired to contribute even more meaningfully to our academic family.

Let us continue to march ahead with passion, purpose, and pride.

The IUR Newsletter values your contribution and we look forward to your continuous support for the coming issue. If you have any questions, comments, concerns, complaints, or constructive suggestions, we'd love to hear them, so please e-mail us at -

thehorizon@iuraipur.edu.in

Happy reading!!!!

About the University

University Details

The ICAI University, Raipur has been established under Section 9(2) of the Chhattisgarh Private Universities (Establishment and Operations) Act 2005 and notified on March 25, 2011. The University is empowered by UGC to award degrees under Section 22 of UGC Act, 1956.

The University is a member of the Association of Indian Universities (AIU) New Delhi.

Campus Infrastructure

The University campus is spread over 30 acres of land. It is located at Kumhari, District-Durg. It has academic blocks with classrooms which are well-equipped with the latest audio-visual equipment and there are facilities with a well-equipped library, a separate law library, laboratories, and advanced computer labs (IoT and AI/ML Labs)

Programs

The ICAI University, Raipur offers career-oriented educational programs at doctoral, postgraduate and undergraduate levels in Management, Information Technology and Science and Technology, Humanities, Education, Commerce, Law etc.

Diploma Programs

DCA | PGDCA (1 year)

UG Programs

B.Tech. (4 years)

B.Tech. (Lateral Entry)

BCA

B.Com

B.Com (Hons)

BBA

BA

BA (Hons) - (Economics, English, Public Administration, Sociology, Hindi, and History)

BA (Hons) - (Economics, English, Public Administration, Sociology, Hindi, and History)

BA LLB

LLB (Hons)

B.Sc. - (Physics, Chemistry, Mathematics, Electronics, Comp. Sc., and Biology)

B.Sc. (Hons) - Physics, Chemistry, Mathematics, Electronics, Comp.Sc., and Biology (3 years)

B.Ed. (2 years)

PG Programs

MBA

MA - (Hindi Literature, English Literature, Economics, Public Administration, Yoga, Journalism & Mass Communication)

MCA (2 years)

LLB (Hons.)

M.Sc. - (Chemistry, Mathematics, Physics)

M.Tech (CSE, ECE)

Ph.D. (Full time and part-time)

From Vice Chancellor's Desk

Dr. S.P. Dubey
Vice Chancellor

Let us continue to uphold the spirit of excellence, empathy, and transformation. Together, let us shape a university that is not only a hub of learning but also a lighthouse of progressive change.

Dear Students, Faculty, and Stakeholders,

It gives me immense pleasure to connect with you through this quarterly newsletter—a vibrant reflection of the dynamic, multidimensional learning environment we nurture at our university.

The past quarter has been marked by a wide array of activities that underscore our unwavering commitment to academic excellence, social responsibility, and cultural heritage. From awareness drives and academic outreach to national commemorations and cultural observances, each initiative represents our collective stride toward holistic education and nation-building.

Noteworthy among recent engagements are the law internship opportunities provided to our students on 12th April 2025, which broadened their professional exposure, and the hostel outing on 21st April 2025, which fostered camaraderie and emotional well-being. The university's representation on 22nd April 2025 at an inter-institutional platform showcased our students' academic confidence and institutional pride.

The CSR activity on 23rd April 2025, reflecting our ethos of giving back to society, and the Placement Drive organized by the Training & Placement Cell on 26th April 2025, which opened doors to promising career paths, highlight our dual focus on community engagement and employability.

We also take immense pride in celebrating our alumni's achievements, which continue to inspire current students. A special mention goes to the innovative model presentation on Chhattisgarh Culture on 29th April 2025, which beautifully bridged tradition with creative learning.

I am heartened by the enthusiasm and dedication demonstrated by our students, faculty, and staff. Each of these accomplishments reiterates our shared vision of fostering leadership, civic responsibility, innovation, and cultural rootedness.

With best wishes,

Articles by Faculties

(APRIL - JUNE, 2025)

From Hype to Harmony: Embracing Joy of Missing out (JOMO) in Investing

CMA (Dr.) Shilpi Gupta

*Assistant Professor
The ICAI University, Raipur,
Chhattisgarh
shilpi.sg29@gmail.com*

One of the greatest investors of all time, Warren Buffett, embodies JOMO in investing to the fullest. "The stock market is a no-called-strike game," he famously remarked. You can wait for your pitch instead of trying everything. You don't have to follow every market trend or stock recommendation. Are You Afraid of Missing Out? FOMO, or the Fear of Missing Out on a popular activity, trend, or event, is a well-known social phenomenon. Since the stock market essentially operates on the same psychology, investors can relate to it.

Social media platforms use Fear of Missing Out (FOMO) as their currency, eager to get us to compare our lives to others. A novice investor frequently overlooks the fact that posts are carefully selected to display "the good life," and the anxious trader may pay for each one with the fear of missing out on something.

On the other hand, the joy of missing out (JOMO), which has been marketed as a remedy for FOMO, involves unplugging from online life and re-establishing a connection with basic

joys in the here and now.

The distinction between FOMO and JOMO is as simple as a single letter. JOMO replaces the word "FEAR" with "JOY," implying that missing out is not only acceptable but also something to be enjoyed. The idea of JOMO is crucial for traders because it emphasizes the importance of pausing to reflect, plan, and have fun rather than jumping into trades.

JOMO stands for the freedom and delight of carefully selecting investing possibilities based on informed judgments. JOMO, or the joy of missing out, places more emphasis on self-control, discipline, and faith in the chosen course of action. Anxiety and fear are rarely useful catalysts for making decisions, and the same is true for financial decisions.

FOMO is among the cognitive biases that might impair investors' judgment during these periods. It can lead to anxiety-driven actions such as disregarding the importance of researching to join the herd or take advantage of a fad "opportunity."

JOMO reduces the stress of paying attention to the daily fluctuations in the stock market. During a major market decline, selling stocks and cashing out is arguably the most dramatic example of this.

Embrace it instead of worrying about missing it! To transform your FOMO into JOMO, follow these steps:

To create a trading strategy: This approach helps traders stay focused and guided. When a trader has a solid plan, they will know when to initiate deals and when to leave them alone.

To maintain a trading journal: It should

be used alongside a trading plan to formulate strategies and develop better awareness.

To rely on authentic sources of information approved by SEBI: Traders are less dependent on other traders when they stay up to date on the latest news and technical analysis. This breaks the loop of FOMO.

JOMO is about realizing the importance of clarity, patience, and peace of mind. Taking a step back to evaluate, think, and act with a clear aim can result in more significant and successful investment. In a society where FOMO is rampant, maybe it's

time we learn to enjoy the chances we pass up while having faith in our discernment and the knowledge that the proper pitches will ultimately present themselves. It's not about One size fits all.

Financial well-being must enhance emotional and physical well-being. Embracing the JOMO attitude will increase the shift from a short-term trading focus to a long-term investing focus. Investing techniques that are more solid, deliberate, and ultimately profitable might result from moving from the fear of FOMO to the calm of JOMO.

CAMPUS CALLING

STAY VISIBLE NOT LOUD

By CMA (Dr.) Shilpi Gupta
Assistant Professor
The ICAI University, Raipur

Campus Calling
THE FIRST LECTURE

Life's true value lies in meaningful deeds, not fleeting attention.

In a world obscured with noise, true success whispers, not shouts. Amidst a world over-saturated by trending hashtags, viral reels, and comments, and Facebook posts demanding instant reactions, a gentle yet powerful principle stands tall: stay visible without being loud. In this age of social media, where attention spans are short and everyone races to broadcast their opinions and achievements, it is easy to mistake noise for influence. But true success does not depend on how many followers one has but on how quietly one has built a reputation built over time.

The world often confuses noise with influence. Many believe that to rise, one must be loud, to be seen, to be heard, to be the most successful they must be. But history and experience consistently prove otherwise. In our schools, offices, and communities, those who make a real difference are the ones who show up, stay consistent, and work with integrity – even when nobody is watching.

This is not a new idea – it is a timeless truth: one that many of India's greatest leaders embodied through their lives. They passed time and again, that quiet diligence and steady commitment leave a deeper mark than any loud proclamation ever could.

Ratan Tata, one of India's most respected industrialists, is another living example of this timeless principle. Despite heading the mighty Tata Group and transforming it into a global brand, he has remained soft-spoken, dignified, and grounded. He rarely appears in the media for self-promotion, his silent contribution to business ethics, philanthropy, and nation-building speak volumes – and have earned him the nation's deepest respect.

Dr. Verghese Kurian, the Father of the White Revolution, too, transformed India's rural economy without seeking political power or limelight. He empowered farmers through simple yet revolutionary cooperative models, creating Amul – an enduring example of silent impact.

In today's age of quick fame and fleeting trends, their legacy reminds us: stay visible, stay sincere, and let your work do the talking. Noise fades fast – but quiet impact echoes forever.

Quiet visibility is not about hiding in the shadows or remaining unnoticed. It is about being present where it counts. It means attending meetings prepared, offering thoughtful inputs, lending a helping hand without expectation, and letting actions speak instead of empty words. This consistent presence builds a solid reputation that serves as a shield against self-promotion.

Moreover, quiet visibility fosters trust. People feel safer around those who listen more and speak wisely, rather than those who chase the spotlight at every opportunity. In teams, these individuals become the glue that holds things together, even if they do not seek applause for it.

Psychologists point out that constant self-promotion can quickly become exhausting and hollow. On the other hand, a calm, visible presence is energizing and genuine, nurturing deep and meaningful connections that outlast fleeting trends.

In a world obscured with making noise, perhaps it is time to redefine success. Let us teach our students, young professionals, and ourselves that steady presence, integrity, and silent dedication build a far stronger foundation than any headline-grabbing shout.

In schools and homes, young minds are increasingly conditioned to believe that being 'popular' or 'viral' defines success. It is high time to remind them – and ourselves – that life's true value lies in meaningful deeds, not fleeting attention.

As the world gets louder, perhaps the wisest choice is to step back, focus on authentic work. Noise may get momentary applause, but quiet credibility earns lifelong trust.

Let's choose quiet dedication over empty showmanship.

Urgency culture -- Glorifying immediacy

By Dr. Shilpi Gupta

In the noise of urgency, wisdom is often the first casualty. The ASAP (as soon as possible) mantra has grown up around us as a good thing for this fast-paced world. The need for speed has evolved from a workplace to a social expectation in today's hyper-connected, always-on, click-of-a-button environment. Decision-making must be immediate, emails must be responded to promptly, and success is measured by the speed of response. This phenomenon is subtly affecting our collective attitude, in addition to changing the way we live and work. In the urgency culture, businesses, even onyx, with importance, responsiveness with dependability, and speed with efficiency. It is the ASAP (as soon as possible) mantra that has grown up around us as a good thing for this fast-paced world.

The need for speed has evolved from a workplace to a social expectation in today's hyper-connected, always-on, click-of-a-button environment. Decision-making must be immediate, emails must be responded to promptly, and success is measured by the speed of response. This phenomenon is subtly affecting our collective attitude, in addition to changing the way we live and work. In the urgency culture, businesses, even onyx, with importance, responsiveness with dependability, and speed with efficiency. It is the ASAP (as soon as possible) mantra that has grown up around us as a good thing for this fast-paced world.

Classrooms, homes, and even our minds are increasingly conditioned to believe that being 'popular' or 'viral' defines success. It is high time to remind them – and ourselves – that life's true value lies in meaningful deeds, not fleeting attention.

Faculty Achievement

April-June, 2025

Dr. Animesh Kumar Sharma,
Assistant Professor & HOD, Faculty of
Science and Technology.

Awards/Achievement

- ▶ Award Winner with Title "Shikshak Ratna Samman" by The Fair Vision Foundation, India on outstanding contribution toward Education and Research . 02 June 2025.
- ▶ Award Winner with Title "National Excellence Achievers Award - Excellent Researcher" by WELRED FOUNDATION, India on outstanding contribution toward Education and Research. 07 April 2025.

Keynote Speaker

- ▶ Invited as the Keynote Speaker on the Digilocker for **All India Radio** Akashvani Raipur's program, 'Pragati ke Sopan.' My interview was broadcast nationally on June 9, 2025.

Coordinator of IIRS (ISRO) Outreach Training Program

- ▶ Coordinated IIRS Outreach Program on Geodata Processing using Python and Machine Learning conducted by The ICFAI University Raipur institute during February 17, 2025 to February 28, 2025.
- ▶ Coordinated IIRS Outreach Program on The Method of Space Science Research conducted by The ICFAI University Raipur institute during May 05, 2025 to May 09, 2025.

- ▶ Coordinated IIRS Outreach Program on Recent Trends in Ecological Modelling & Simulation conducted by The ICFAI University Raipur institute during May 19, 2025 to May 23, 2025.

Editor of Journal(s)

- ▶ Appointed Assistant Editor in International Journal of Physics and Mathematics (IJPM) [P-ISSN: 2664-8636, E-ISSN: 2664-8644]

Patent Published

- ▶ Patent "Fixed Point Analysis for Stability and Optimization in Real-world Engineering Systems". Published 13 June 2025.
- ▶ Patent "Enhanced Fuzzy Mathematics Algorithm for Data Analysis". Published 23 May 2025.

Research Paper Publication

- ▶ Research Paper titled "A Comparative Analysis of Inventory Models: Evaluating the Economic Order Quantity (EOQ) Model with Constant Demand versus Variable Demand Rates" published in Journal of Ravishankar University, (Part – B, Science), June 2025.
- ▶ Research Paper titled "Leveraging Block chain Technology for Enhanced Government Services, Transparency, and Administrative Efficiency" published in IEEE Xplore Scopus Indexed (IEEE Computer Society Conference Publishing Services (CPS)) in Conference proceeding of 2024 Second International Conference on Advanced Computing & Communication Technologies (ICACCTech) March 2025.

Book Chapters Publication

- ▶ The book chapter submitted "The Synergy of AI and Mathematical Models in Optimizing Decision-Making Processes" has been submitted in an edited book titled "The Global Nexus , Volume 1, Year 2025", (Global Nexus 2025) ISBN 978-81-985983-5-6 Published 25-March-2025.

- ▶ The book chapter submitted "AI and Mathematical Modeling: Transforming Research and Applications" has been submitted in an edited book titled "Spectrum, Volume 7, Year 2025", (INFES 7.0 2025) ISBN 978-81-984223-9-2.

Reviewer of Book Chapters/Journals

- ▶ Reviewer of a Manuscript in Asian Research Journal of Mathematics (India and UK). 14 February 2025
- ▶ Reviewer of a Manuscript in South Asian Journal of Social Studies and Economics (India and UK). 18 January 2025

NPTEL Training Program /Course Participation

- ▶ Completed 12 weeks Online course "Introduction to Machine Learning" at SWAYAM Platform Organized by NPTEL (National Programme on Technology Enhanced Learning) – Jan-Apr, 2025.
- ▶ Completed 12 weeks Online course "Business Intelligence and Analytics" at SWAYAM Platform Organized by NPTEL (National Programme on Technology Enhanced Learning) – Jan-Apr, 2025.

Faculty Development Program (FDP) Participation(s)

- ▶ Participated in Five Days Faculty Development Programme on "Cyber Physical Systems" organized by the Department of Information Technology, Dr. M.G.R. Educational and Research Institute, Chennai-95, India from 26th – 30th May, 2025.
- ▶ Participated in the Faculty Development Programme on "AI Tools for Research" organized by the Department of Automobile Engineering & MBA, ESWAR College of Engineering in association with Pencilbitz Publication, Andhra Pradesh, India on 30th May, 2025.
- ▶ Participated in One Month Online Course on "Quantum Computing" organized by

► Centre for Development of Advanced Computing, Hyderabad & Indian Institute of Technology, Roorkee with the support of the Ministry of Electronics and Information Technology, Government of India, from 3rd - 25th May 2025.(Scored 73.33%).

► Participated in One Week Online Faculty Development Programme on "Building Excellence: Strategies for Lifelong Learning and Continuous Professional Development in Enhancement of Quality Higher Education" organized by School of Education, K.R. Mangalam University in collaboration with Internal Quality Assurance Cell (IQAC), K.R. Mangalam University & Shiksha Shastram Circle, Council for Teachers Professional Development (CTPD) India, from 1st - 7th May 2025.

► Participated in 7-Days Faculty Development Program (FDP) on "Advances in Nonlinear Dynamics and Applications in Engineering (ANDAE-2025) ", organized by the Department of Mathematics, SRM Institute of Science and Technology, Ramapuram, Chennai - 600089, from 21st - 28th April 2025.

► Participated in 7-Days Faculty Development Program (FDP) on Research Methodology Organized by KSA Barns College of Arts, Science and Commerce, New Panvel ,MGM College of Computer Science & Information Technology, Kamothe Navi Mumbai, MGM's College ofCommerce, Kamothe, Navi Mumbai, UES College of Management and Technology, Uran in Association with Navi Mumbai College Association (NMCA) on 21st - 27th April 2025.

► Participated in Five Days Faculty Development Program (FDP) on "Emerging trends in Graph Theory" Organized by Department of Basic Science and Humanities in Association IQAC, SCMS School of Engineering and Technology, held on 21st - 25th April 2025.

► Participated in One Week Faculty Development Program (FDP) on "INDUSTRY 4.0 WITH SUSTAINABLE PRACTICES" Organized by Department of Electronics & Telecommunication Engineering, Vishwakarma Institute of Information Technology, Pune on 7th-11th April 2025.

► Participated in the "Faculty Development Program on Original and Review Manuscript Drafting, Plagiarism Checking, and Free Publication Process (Manuscript Mastery 2.0 2025) " Organized by Eudoxia Research University, USA and Eudoxia Research Centre, India with European International Research Council of Eudoxia from 3rd – 11th April 2025.

Workshop(s) Participation(s)

► Participated in the One Day National level Workshop on "Research Methodology" organized by Internal Quality Assurance Cell (IQAC) of Shri Sai Baba Aadarsh Mahavidyalaya, Ambikapur, Chhattisgarh, on 9th April,2025.

Webinar Participation(s)

► Participated in the National level Webinar on "Transforming Teacher Education through the Lens of NEP 2020" organized by Council for Teachers Professional Development (CTPD India) on 31 May 2025.

Dr. Pyali Chatterjee,
HOD & Assistant Prof, Law

Invited to serve as an Academic Reviewer for the United Nations Youth Mental Health Flagship Narrative, an initiative by the United Nations Youth Office aimed at advancing global youth mental health through a human rights-based and holistic approach.

This prestigious opportunity not only recognizes the significance of academic contributions in shaping global narratives but also reinforces our shared responsibility in promoting mental health and well-being worldwide. Dr. Chatterjee was honored to offer her insights as part of the distinguished academic committee supporting this important mission.

Mr. Dilip Mishra,
Assistant Prof, FST

Presented a research paper titled “Enhancing Air Quality Prediction in IoT-Based Smart Environments Using Graph Neural Networks and CNN Models ” (Paper ID: 25R425) at the 2025 IEEE International Conference on Cognitive Robotics and Intelligent Systems (ICC-ROBINS), held on June 25–26, 2025, at KPR Institute of Engineering and Technology.

He has also completed the online course on “The Method of Space Science Research” conducted by the Indian Institute of Remote Sensing (IIRS), ISRO, from May 5 to May 9, 2025.

Dr. K. Nagaiah,
Assistant Prof, FST

Successfully completed the course “Data Analytics with Python”.

**Dr. Palak Keshwani**

Assistant Professor

Faculty of Science & Technology

1. Successfully completed the NPTEL course titled "The Joy of Computing using Python & earned an Elite certification.
2. Successfully completed a 12-week Faculty Development Programme (FDP) through NPTEL-AICTE.

**CMA (Dr.) Shilpi Gupta**

Assistant Professor

Faculty of management Studies**Publications**

- ▶ A Research Paper titled "From Budgeting to Investing: The AI powered Financial Ally" published in May 2025 in Communication and Management Journal, Volume 10(5), Pg 175-191, ISSN: 2269-7195
- ▶ A Research Paper titled "Investigating the Challenges Involved in Cyber Threats for Transactions over the Internet" published in June 2025 in Advances in Consumer Research, Volume 2(4), Pg 712-716, ISSN: 0098-9258

Copyright Published

- ▶ A Copyright published on A Computational Framework for Analysing Cognitive Biases across Sectors and Risk Profiles with Application No.: 40228/2024-CO/L.

NPTEL

Received NPTEL Discipline Star Certificate for Jan-Apr 2025

- ▶ Financial Analytics a 12-week course from NPTEL with 61% in May 2025.

Newspaper articles

- ▶ An article titled "From hype to Harmony" published in Central Chronicle on 18th

April 2025.

- ▶ An article titled "The Urgency Culture" published in Hitavada on 15th May 2025.
- ▶ An article titled "Stay Visible Not Loud" published in Central Chronicle on 20th June 2025.

Mr. Sashank Sekhar Dayal
Assistant Prof, Faculty of Arts & Humanities

Dr. Shiv Narayan
Associate Professor & Head of Department, Faculty of Education

Publication- Published a research paper on the topic, "Enhancing Scientific Aptitude in Students through a Comparative Analysis of Multimedia-Based Teaching and Traditional Methods in Science Education", Indian Journal of Science and Technology.

Dr. Shweta Dewangan,
Assistant Professor, Faculty of Commerce

Publications-

- ▶ Leveraging Blockchain Technology for Enhanced Government Services, Transparency, and Administrative Efficiency (IEEE Xplore)
- ▶ AI in Telecommunication: Revolutionizing signal processing and communication networks in smart grid (IEEE Xplore)
- ▶ Frontiers of Innovation: Unveiling the Future Opportunities in Fintech (Book Chapter)

Albinism in India: Breaking myths, building inclusion

A recent viral story in India featured a newborn with albinism, whose silver hair shocked the parents due to their lack of awareness. Only after a doctor explained the condition did they begin to understand and accept it. The incident highlights widespread misinformation about albinism and the stigma often faced, especially by mothers, who may be unfairly accused of infidelity.

Albinism is a rare, non-contagious genetic condition caused by a lack of melanin in the skin, hair, and eyes. It affects an estimated 100,000 to 200,000 individuals in India. There are two main types: Oculocutaneous Albinism (OCA), which affects skin, hair, and eyes, and Ocular Albinism (OA), which affects only the eyes. People with albinism often suffer from visual impairments, including light

Dr. Pyali Chatterjee,
Associate Professor,
HOD Faculty of Law,
ICFAI University, Raipur

sensitivity and reduced vision. Their sun-sensitive skin also makes them prone to sunburn and skin cancer, worsened by poor access to sunscreen and protective clothing. Socially, people with albinism face discrimination, isolation, and hurtful labels such as *surajmaki* or *argies*. Children often struggle in school due to vision problems, lack of learning aids like large-print books, and limited teacher awareness. Despite being a signatory

The ICFAI University, Raipur

to the UN Convention on the Rights of Persons with Disabilities, India does not legally recognize albinism as a disability under the Rights of Persons with Disabilities Act, 2016. This results in

gaps in support, particularly for dermatological care. Sunscreen, vital for preventing skin cancer, is not listed under the National Essential Medicines List.

India must recognize albinism under disability law, provide affordable healthcare and educational support, and promote public awareness. Including people with albinism in the national census and learning from countries like Ghana and Nigeria can lead to better policies. With greater awareness and legal action, India can ensure dignity, inclusion, and equality for all.

Cervical Cancer & HPV Vaccination: A Public Health Imperative

OPINION

DR. PYALI CHATTERJEE,
MS. KOMAL GOSWAMI &
MS. DISHA GAUTAM

over 100 million, it is estimated that several billion more can be prevented through vaccination. Thus, the availability of the vaccine for several years, in several countries, is a very important and public health challenge. It is primarily caused by events like high-risk sexual activity of the HIV-1. People from Iran have been infected by HIV-1, an infection that is transmitted by sexual intercourse and blood transfusion and also by intravenous and genital insertion of drugs. Unfortunately, there is no effective infection control measure. The HIV vaccine trials have been ongoing since 20 years. Each year 40 000 persons acquire HIV infection, while there are 25 million more than one million of people who are infected. The success of the vaccine will depend on the potential to prevent infection from high risk HIV types, particularly HIV-1 and HIV-2. Each year together account for about 70% of cerebral cases.

The invention of the HIV vaccine is a major milestone to prevent infections. The first successful HIV vaccine was developed in 1987 by Dr. Robert Gallo and Dr. Françoise Barre-Sinoussi at the University of Queensland, Australia. Their groundbreaking research led to the creation of the vaccine which was first used in 1990.

evolutionary development has been a major challenge for public health strategies of fighting a scientifically proven method is present (10). Several countries, such as the United States, have taken the first steps in terms of new cases (one year), with approximately 60% of the burden falling on individuals with a history of smoking (11). In the United States, for example, responsible for 7.8% of all female cancer deaths worldwide, with only slightly less than 10% of the total burden currently responsible for lung cancer (12). In the United States, the leading cause of death is heart disease, with a death rate of 22.3% (13). In the United States, the leading cause of death is heart disease, with a death rate of 22.3% (13). In the United States, the leading cause of death is heart disease, with a death rate of 22.3% (13).

Various strains are currently being tested against various HIV types, and the most promising are being tested against both acute and late infection. Some studies suggest that the vaccine may also protect against the sexual transmission of HIV, but this is still under investigation. The vaccine is currently being tested in large-scale clinical trials, and it is hoped that it will be available to the general public within a few years.

Over the extensive scientific evidence and global health recommendations, the administration of the HIV vaccine stands as a socially, culturally and legally maligned scenario for governments. HIV-related concerns, including sexual access, the vaccine, targeted and aggressive treatment and health care, have been central to WHO, CDC, UNAIDS and in developed populations groups. In this context, the HIV vaccine is a part of public health policy, and in being linked with interests outside those to fight the HIV it flirts with other governments, healthcare providers, and public institutions take all necessary steps to ensure the availability, availability, and informed administration of the HIV vaccine. Phases

Despite these advantages, there is an urgent need to make progress in socially organizing vertical networks and to develop the capacity of the HPS to meet the needs of many individuals, especially in rural and underserved communities, remote areas and the link between the community and the health system is often weakened by multiple barriers or misperceptions. Lack of knowledge among parents, adolescents, and health care workers about the importance of the health system opportunities, health issues associated with sexual health and/or adolescent sexual activity and education. Therefore, community-based health promotion and health programs, including of course, the promotion of sexual health education in schools, workplaces, churches, and other community settings, are important in not only raising the awareness but also for suggesting individuals to make relevant health-care decisions and to seek appropriate services.

After May 2020, numerous countries have launched or expanded their HPV vaccination programs to eliminate cervical cancer and improve public health. In October 2023, Bangladesh initiated its first nationwide HPV vaccination campaign, targeting girls aged 9 to 18. The campaign launched a national multi-media campaign (NAC-COVID) in April 2024, offering the HPV vaccine free of charge. Majorities began their national HPV vaccination program in October 2023, adopting a single-dose schedule. For girls aged 9 to 18, starting is achieved at least 80% coverage. The United

Kingdoms expanded its programme in 2004 to include all 12- and 16-year-olds, regardless of age, gender, background or social class. The HPV vaccine is offered to both sexes and aims to distribute cervical cancer by 2010. Following Australia's model (see table 2010), Australia has allowed women aged 16 to 24 to self-select cervical screening samples, thereby improving access to assistance and support. In India, efforts have been made to deal with the barrier of the indigenous HPV vaccine 'Cervavac' in March 2010. Thousands of doctors have been trained to promote its uptake, making the vaccine more accessible and affordable.

At the state level, India has released national government allocations. Bihar launched the "Mukhya Minister Sahitya Ganga Pariksha" in 2004, becoming the first state to offer the HIV vaccine to all 18- to 24-year-olds in a school-based program that achieved high coverage rates. Gujarat provides free access through government health programs and health fairs. Andhra Pradesh offers a 90% subsidy and delivers free vaccines through government health fairs. States like Punjab, Karnataka, Tamil Nadu, Chhattisgarh and Madhya Pradesh have rolled out HIV vaccination programs for schoolgirls in specific districts, strengthening the country's collective efforts against HIV infection.

In close of these successful strategies, it is imperative that all state governments in India promote and implement the HPV vaccination programme at all government and private health institutions. A community or household based vaccination strategy will ensure rural and semi-rural children, from all socio-economic backgrounds and close the urban-rural gap in prevention. The inclusion of

the standard school hours (whether or not) will not only protect millions of young people from HIV-related diseases but also by the time that the vaccine has been developed and is available.

To prevent future generation and also control current HIV infection, a number of factors, such as the development of highly effective HIV vaccine into the Universal Vaccination Programme (UVP), just as it has done with the polio vaccine. Policy evaluation in India has to make possible by continued past trend, community, public awareness, and other widespread social and economic. A study of the model is urgently required for cervical cancer prevention. Inhomogeneity of HIV vaccine into the national immunization schedule would guarantee that all children of both - regardless of the socio-economic or geographic background - receive protection from HIV. India, we

University Activities

Unnat Bharat Abhiyan (3.4.2025) - Startup Mahakumbh 2025 under UBA in which five students represent ICAFI University at Bharatmandipam, New Delhi. They met with Sri Durga Das Uike, Minister of State, Tribal Affairs, Government of India. This was a great learning and exhilarating moment for all participants.

O'ZBEKISTON RESPUBLIKASI ADLIYA VAZIRLIGI
MINISTRY OF JUSTICE OF THE REPUBLIC OF UZBEKISTAN

No. 15135-Subst. 2025

Head of the Department
of Faculty of Law at ICAFI University
Dr. Pyali Chatterjee

Dear Ms. Pyali Chatterjee,

The Ministry of Justice of the Republic of Uzbekistan presents its compliments and is pleased to inform you on holding the IV International Legal Forum "Tashkent Law Spring" on May 29-30, 2025 in Tashkent.

This biennial forum is the major international event in Central Asia in the field of law and justice. It aims to create a platform for open dialogue, bringing together leading national and international experts to discuss current tendencies in the development of law in the context of global socio-economic challenges.

For reference: The IV International Legal Forum "Tashkent Law Spring", held in May 2023, brought together over 1000 participants, including 178 foreign participants from over 40 countries and international organizations. Among the attendees were senior officials of Uzbekistan and other countries, leading world experts in the field of law and science, international relations and economics, as well as representatives from top law firms and international organizations.

The IV International Legal Forum is titled "The Digital Age: A Legal Perspective on the Future".

The Forum's Program will include an official and plenary session, discussion panels and workshops.

It is an honor for us to invite you to be our guest and take part as a speaker in the discussion session on the topic "Legal Education 4.0: new competencies, technologies and challenges" in the Forum by sharing your experience and knowledge, which will undoubtedly make an invaluable contribution to and enrich the content of the Forum.

Additionally, we are pleased to inform that the registration fees will be fully covered by the organizing committee.

To assist with the organizational arrangements effectively, we would be grateful if you could confirm your participation by March 20th, 2025.

Further information can be found on the official website of the Forum www.tashkentlawspring.uz or by addressing our contact person.

Goodbye, Akbar - representative of the Organizing Committee from the International Cooperation Department of TJSU, (+998908066000, bah.uzakov@gmail.com).

Yours sincerely,

Minister

Akbar Tashkalev

Faculty Guest Talk (7.4.2025) - Dr.Pyali Chatterjee has been invited as a guest and speaker for IV International Forum by Uzbekistan Ministry of Justice. This is a great opportunity for building ties and extending the outreach of the university.

Feedback

Publication (8.4.2025) - Dr.Shweta Dewangan's research paper has been published in IEEE Xplore and is now indexed in Scopus. The topic of her paper was "Leveraging Block chain Technology for Enhanced Government Services, Transparency, and Administrative Efficiency".

Hostel Outing (21.4.2025)-Boys' Hostel students visited Nandanvan Jungle Safari, Nawa Raipur. It was a day full of fun and transformative experience for the students.

University Representation (22.4.2025) – Dr. Jayant Issac and Dr. Ramesh Yadav represented The ICFAI University Raipur at the One-Day SWAYAM-NPTEL Workshop on 22nd April 2025 at MATS University, Raipur, jointly organized by IIT Kanpur NPTEL Chapter and Chhattisgarh Higher Education. The workshop focused on the National Credit Framework and the empowering role of SWAYAM in credit-based education.

Felicitation (26.04.2025) – A felicitation ceremony was organized at Bhilai, for acknowledging the contribution of retired Principals in developing society. The event was attended by 55 plus government principals of reputed schools with presence of eminent personalities (JD, Durg and DEO, Durg). The University was represented by Dr. Pratik Jagtap and Mr. Ajay who shared the ICFAI University culture with the eminent gathered audience and all of them wholeheartedly appreciated it.

Law Internship (12.4.2025) - 14 students of Law have been selected to undergo summer internship with Honorable District Court Durg and Honorable District Consumer Grievances Redressal Forum Durg for a period of 1 month starting from 01-07-25 to 31-07-25. All 14 students will get a practical exposure from the live proceedings from the honorable court.

Placement Drive by T&P Cell (26.04.2025) - Placement drive for recruitment in Bajaj Allianz was conducted on 26.04.2025. The drive was for final year students of MBA/BBA and BCOM. 09 students of BCOM final year appeared in the selection process. Out of them 6 have successfully cleared all preliminary rounds and appeared in the final HR round. In the final round, Mr. Chandraprakash Sori and Ms. Omika Chauhan have successfully secured placement offers with a package of 3 LPA.

Faculty	Achievement
(10.05.2025) - Dr. Pyali Chatterjee	has been awarded the Second Position for 'Best HEI Teacher 2025' in a ceremony conducted by Kalinga University, Raipur, where faculty members from Chhattisgarh as well as other states participated.

Publication (14.05.2025) - Dr. Pratik Kumar Jagtap has published an International Book chapter titled "Elastomeric based 3D and 4D Printable Composite Materials for Engineering Applications" with Renowned Springer Nature Publication House.

Workshop (17.05.2025) - The Faculty of Law, ICFAI University Raipur, successfully organized a 2-Day Workshop on Contract Drafting. The workshop provided law students with valuable insights and hands-on experience in drafting skills. Adv. Roshni Vipani from Legal Rise Institution served as the resource person.

CSR Activity (23.4.2025) Smiling Faces!

Today, the MBA students took a meaningful step beyond the classroom by distributing educational kits and snacks to the little ones at the Anganwadi center in Village Choraha, located near ICAI University.

This activity, conducted as part of their academic assignment, not only emphasized the importance of community engagement but also instilled a sense of social responsibility and compassion among the students.

Faculty Participation (25.4.2025) – Dr.W.Ramanna Rao has participated in FDP on “Nurturing Future Leadership” under the aegis of Malviya Mission Teachers Training Program (MMTTP) from 21-25 April, 2025.

Alumni Achievement – It's pleasure to inform about a notable achievement by one of ICFAI esteemed alumni, Mr. M. Abhishek B.Tech. CSE, Batch: 2016-20. As of March 10th, 2025, he has successfully ventured into entrepreneurship as the Co-founder of a new company named AFTL – Advanced Future Tech Labs.

The company is registered and headquartered at 51 Wolsdon Street, Plymouth, England, UK – PL1 5EN. This initiative reflects his continued dedication to innovation and advancement in the field of technology.

We take pride in Mr. Abhishek's accomplishments and believe this milestone not only enhances his professional journey but also brings prestige to ICFAI University.

Faculty Achievement (21.05.2025) - Dr. Shweta Dewangan published a paper in IEEE Xplore on the topic "AI in Telecommunication: Revolutionizing Signal Processing and Communication Networks in Smart Grid."

FDP (26-30 May, 2025) - A five-day online Faculty Development Program titled "Crafting Impactful Cases: FDP on Case Writing" was conducted from 26th to 30th May 2025. The program aimed to equip participants with a strong foundation in case writing, including structuring cases, framing dilemmas, sourcing and integrating relevant data, and developing comprehensive teaching notes.

Model on Chhattisgarh Culture (29.4.2025) – On Tuesday, 29th April 2025, B.Ed. students from First Year and Second Year actively participated in an Activity on Chhattisgarh Culture, organized as part of the NAAC initiative.

All students enthusiastically took part in the event, showcasing their creativity and team spirit.

The participants showcased different ornaments of C.G, customs and rituals like akti, sua-naach, bullock-cart race, decorating supa, parra, painting of tribal culture, etc.

Faculty Achievement (28.4.2025) - Dr.K.Nagaiah was appointed as a Reviewer for the 2nd International Conference on Computational Intelligence and Network Security (ICCINS 2025), organized by NIT Raipur on 3rd-4th April 2025. It was a valuable opportunity for him to contribute by reviewing research papers and providing constructive feedback.

Awareness Drive (27.05.2025)

- NSS wing of The ICFAI University organized "NO Tobacco" campaign in University campus under NTPC program. Students of B.Ed. have actively participated in procession around campus carrying posters, placards and shouting slogans on harmful effects of tobacco. The procession was followed by a discussion on ill effects of tobacco in society.

University Achievement (29.05.2025)

- The ICFAI University Raipur has been recognized as an Active LC again this time. Out of 7000 Local chapters & among the ICFAI group, IFHE (Active +Aspirants), ICFAI Jaipur (Active) and ICFAI Raipur (Active) has been secured positions in the NPTEL List.

Summer Internship (31.05.2025)

- Mr. Indrajeet Sinha, a 1st-year MBA student of ICFAI University Raipur, has been successfully selected for the Summer Internship Program (SIP) at VNR Seeds Pvt. Ltd., Raipur. He has been offered a paid internship with a monthly stipend of ₹11,000, which is a remarkable achievement and a testament to his hard work and potential.

Guest talk and activity (04.06.2025) - On 4th June 2025, the Faculty of Education organized a Guest Lecture on DIKSHA (Digital Infrastructure for Knowledge Sharing) by Shri Hemant Kumar Sao, Senior Lecturer, SCERT Raipur. The session was informative and insightful for all participants. This was followed by a creative activity, "Best out of Waste", in which B.Ed. First Year (2nd Semester) students participated enthusiastically, showcasing their innovation and teamwork.
